## Many Journeys & Many Celebrations!

### Thailand - Leadership Matters

We spent 12 days with 21 other participants and 14 trainers learning about all aspects of Leadership and Management from a biblical perspective - relationships, communication, public relations, creative thinking & decision making, motivation, training - all very hands on. It fits very well with our other work on Values in the Marketplace. Now we are starting to use our developed skills to develop our staff and hopefully many of our artisans.

### Cambodia - R & R

12 wonderful days in Cambodia; not seeing the sights, just simply resting, relaxing, beaching, swimming, eating sea food and doing a couple of hours of long term strategic thinking for Mary & Martha Mongolia.

### Christmas - with our Staff

A time to talk about how Mary & Martha had done during the year, to share with each other, eat and play games - and to share why Christmas is important to us and our motivations to follow Jesus.

Our staff are all between 17 and 24, all trying to work out what to do with their lives and gradually questioning what life is about - just one Christian.

### Mongolian White Month

A time to celebrate the end of winter! A time for people to mend relationships; to eat, drink and be merry. Does it sound familiar! Actually a time of spending more money than you have on presents, eating too much, relationship breakdowns due to excessive use of vodka and a time of over working for all the women. Human nature is such a challenge.

Please pray for our witness in 2011.

Blessing to you all in 2011
